Reexamination Proceeding
Control No. 90/000,749

DECISION ON PETITION

Filed: March 28, 1985
For: U.S. Patent No. 4,042,890

Petitioner Eckerle filed a petition on March 30, 1990, under 37 CFR § 1.181, or in the alternative under 37 CFR § 1.182, seeking review of a Notice of Intent to Issue a Reexamination Certificate entered March 22, 1990, indicating the cancellation of claims 1-16, all the claims of the patent. Petitioner requests the Commisioner to direct entry of an amendment filed Feb. 7, 1990, and to issue and publish a reexamination certificate indicating the patentability of claims consistent with that amendment. The petition is denied.

In *In re Eckerle*, No. 89-1552 (Fed. Cir Dec. 8, 1989), the Federal Circuit affirmed the examiner's rejection of claims 1-16 (all the claims in the patent) under 35 U.S.C. § 112, first paragraph, for lack of written description of an added limitation to claim 1, and the rejection of claims 1-6, 10-13 and 15 as unpatentable under 35 U.S.C. § 103. The Federal Circuit's mandate issued on December 29, 1989. Reexamination proceedings were terminated in this case when the PTO received the mandate on Jan. 3, 1990. No claims were allowable at the time the reexamination proceeding terminated.

Under 35 U.S.C. § 306 and § 144, the Federal Circuit's mandate and opinion shall govern further proceedings in the case. Under 35 U.S.C. § 307, when any appeal proceeding has terminated, the Commissioner will issue and publish a certificate cancelling any claim of the patent finally determined to be unpatentable. The examiner's Notice of Intent to Issue a Reexamination Certificate indicating the cancellation of claims 1-16 was proper.

The Commissioner lacks authority to reopen the reexamination proceeding after receipt of the mandate where all claims have been rejected since the case is no longer considered pending. *See* MPEP § 1216.06 (5th ed., rev. 12, July 1989) under "Office Procedure Following Decision by the Federal Circuit," subheading "1. All claims rejected"; *In re Willis*, 537 F.2d 513, 515, 190 USPQ 327, 329 (CCPA 1976) ("When, on January 12, 1976, our mandate was received in the PTO, no claims having been allowed, the appealed application suffered its demise."); *In re Jones*, 542 F.2d 65, 69, 191 USPQ 249, 252 (CCPA 1976) ("[R]eceipt of the mandate by the PTO terminated proceedings in the case"); *Continental Can Co. v. Schuyler*, 326 F. Supp. 283, 284, 168 USPQ 625, 625 (D.D.C. 1970) ("[W]here rejection of all claims is affirmed by the Court of Customs and Patent Appeals, as in this case, the responsibiliity is upon the plaintiff to stay the Court's judgment if the pendency of the application is to be preserved"); *Morganroth v. Quigg*, 885 F.2d 843, 847, 12 USPQ2d 1125, 1128 (Fed. Cir. 1989) (Commissioner does not have authority to revive application abandoned by termination of proceedings resulting from a failure to appeal a final district court judgment). Petitioner's relief, if any, lies in a motion for the Federal Circuit to withdraw its mandate, not with the Commissioner. *See Jones*, 542 F.2d at 68, 191 USPQ at 252 (CCPA "has the power, in the interest of justice, to recall its mandate in an appropriate case, and this power should be exercised sparingly and only upon a showing of good cause").

The petition does not state all the material facts. In particular, it fails to mention the dispositive fact that all claims were rejected under 35 U.S.C § 112, first paragraph, at the time reexamination proceedings terminated. The examiner stated in the Notice of March 22, 1990, the Commissioner lacks jurisdiction to reopen the reexamination proceedings after issuance of the mandate where no claims have been allowed. Petitioner fails to address the issue of the Commissioner's authority to reopen the reexamination proceedings. Petitioner's arguments that the amendment was timely because "no adequate opportunity was presented until at least the decision of the Board to file the attached amendment" (Petition, page 3), and that an amendment presented after the decision of the board would "have merely been held in abeyance pending the outcome [in the Federal Circuit]" (Petition, page 3), are unpersuasive. The amendment could have been filed after the Federal Circuit's decision and before issuance of the mandate; instead, the amendment was not filed until 5 weeks after receipt of the mandate.

The petition is *denied*.

Reexamination proceedings are to be conducted with "special dispatch." 35 U.S.C. § 305. In order not to unduly delay issuance of the reexamination certificate, petitioner is given ten (10) days to file any request for reconsideration.

## Reference Collection of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to libary, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions*, and provides technical staff assistance in their use to aid the public, in gaining effctive access to information contained in patents. CASSIS (Classification And Search Support Information System); which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collections among the PDLs and in their hours of service to the public, anyone contemplating use of the patents at a particular library is urged to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

## SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

# SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

## SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
